

PERMISSION LETTER

To ,
The Dean,
Aditya College of Engineering & Technology,
Surampalem.

Date: 09-09-2026

Subject: Request for Permission for Idea Spark 2026 Project Development

Respected Sir,

We are a team of students from the **IT, Data Science, and IoT departments**, comprising 3rd Year and 4th Year students, working together on our project “**Bloomora – A Smart and Personalized Gifting Platform.**”

Bloomora is an innovative digital gifting platform designed to provide personalized gift recommendations and a convenient gifting experience based on the recipient's interests, preferences, occasion, budget, and other relevant factors. We are participating in **Idea Spark 2026**, scheduled on **24th–25th September 2026**, where we will present our project before higher officials and the evaluation panel.

We require dedicated time for application development, frontend and backend integration, database implementation, recommendation system development, user experience enhancement, testing, and preparation of the complete project prototype and presentation for the event.

Therefore, we kindly request you to grant our team permission for project development and Idea Spark preparation from **09-09-2026 to 25-09-2026**. We assure you that we will attend all important classes, labs, and examinations as required and maintain our academic responsibilities.

We kindly request you to consider our request and grant us the necessary permission.

Thanking You,

Yours faithfully,

Team Bloomora
